## Family History

My great great grandmother **María Dolores Quintana** was born about 1846 in Tesuque, New México. She came with the priests from Tesuque to Peñasco as a cook. Her children were baptized and/or married at La Misión de San Lorenzo de Picuries and/or La Iglesia Católica de San Antonio de Peñasco and identified as "hijos naturales." Picuries and Peñasco are in Taos County, New México.

According to my mother, Maria Dolores was a mistress of four men. She was kidnapped, rescued and physically mutilated. According to my cousins descended from her daughter, María Antonia, María Dolores was raped by an Apache.

Two possible fathers of her children are a Roybal from Rio Lucio and an attorney named Sánchez from Las Vegas, New México. The fathers of her children have not been identified through any records or family stories.

The known children of Maria Dolores Quintana are:

Antonio abt 1864]  
Jose Seberiano [1864];  
Maria Antonia [1865-1924];  
Juan Estevan [1867-1952];  
Maria Ramona [1870-1945];  
Maria Rimalda [1873-1946];  
Maria Trinea [1876];  
Agapito [1880-1958].

In the 1910 Peñasco Census, Maria Dolores was listed as having 8 children, 5 living. The 1885 Census also listed a son Antonio age 21. Five of her children lived past 1910: Maria Antonia, Juan Estevan, Maria Ramona, Maria Rimalda & Agapito. This means that Jose Seberiano, Maria Trinea and Antonio died before 1910.

Her son Juan Estevan Quintana and her daughter María Rimalda Quintana are both my great grandparents. María Rimalda was part Cherokee. Ramona was given away to a family [Cordova or Cisneros] in Llano. Agapito moved to Utah to get away from the family.

María Dolores owned property in Peñasco across the road from Peñasco High School near the Picuries Reservation. The Santa Barbara Land Grant and the Trampas Land Grant boundaries are very close. Miguel Quintana [unknown relationship] and Agapito Quintana [son] owned land next to hers in Peñasco. Either Ramona [daughter] or Rimalda [daughter] owned land by the Llano Cuchillo.

I suspect María Dolores was a full blooded Indian. Mom told me that María Dolores and her granddaughter María Guadalupe Martinez would go up into the *montes* [forests] above Llano to visit the Apaches. Armando Martinez told me that María Dolores and Rimalda used to go up to upper Llano to visit the Apaches. Liz Varela told me that her grandfather [Alfonso Ortiz, an apache, married to a grand daughter of Maria Dolores] used to go to the Apache Canyon near Chamisal for special occasions. Mom told me that Geronimo [famous Apache] is our tío and has the same features as María Dolores. When the priest baptized my great grandmother María Rimalda, he announced "Hoy bautize una india." However no note was made on her baptism record.

Juan Estevan was tall and big. He liked to race his red horse. Armando Martinez [owner of the Peñasco Dance Hall] told me Juan Estevan heard about a horse race in Peñasco. Juan Estevan came on horsback, left his horse about a mile from Peñaco, and came to see who was racing. Juan Estevan would return home to Llano from the Rodarte Bar asleep on his horse. Juan Estevan Quintana was a US Marshall. He delivered the Trampas Lumber Company vs Juan B Ortega et al Lawsuit to Juan B Ortega in Llano. One time my Aunt Daisy heard a noise outside the house in Llano to see that her Uncle Juan was standing with his gun over one man he had captured.

Benito Roybal [worked at Peñasco Bar], who looks like Juan Estevan Quintana, is the son of José Tomas Roybal and María Antonia de la Cruz Martin. His brother, Francisco Roybal, married Juan Estevan's sister María Antonia Quintana. Mom had said that Juan Estevan Quintana's father was probably Roybal, maybe Tomas Roybal.

Armando Martinez from the Penasco Dance Hall gave Mom the picture of María Dolores and María Rumalda Quintana. Maria Janie Rodriguez sent me the copy of the funeral button for María Antonia Quintana. Dallas sent me the picture of Juan Estevan Quintana.

The results of my Family Tree mtDNA lists my maternal line as Haplogroup A [native american]. My most distant known maternal ancestor is María Dolores Quintana. I am also registered with the New México DNA Project. See Kit # 81329

### Llano de San Juan Nepomuceno

Llano de San Juan Nepomuceno established 1796 as a part of the Santa Barbara Land Grant.

Road 73 leads northeast to Rodarte and then to Peñasco.

The road leading southeast goes to Santa Barbara and eventually towards La Jicarita.

The road leading northwest follows the top of the Llano and ends at Rio Lucio.

The road leading west eventually leads to the Llano Cuchillo and then to Rio Lucio.

The center buildings were the original plaza of Llano.

The pavement ends when 73 reaches Llano. From then on they are all dirt roads.

The lone building in the middle of the plaza area is the Llano Catholic Church.
